Homen Avoid Operations

When a woman suffering from some form of feminine disorder is told that an operation is necessary, it of course frightens her.

The very thought of the hospital operating table and the surgeon's knife strikes terror to her heart, and no wonder. It is quite true that some of these troubles may reach a stage where an operation is the only resource, but thousands of women have avoided the necessity of an operation by taking Lydia E. Pinkham's Vegetable Compound. This fact is attested by the grateful letters they write to us after their health has been restored.

These Two Women Prove Our Claim. Cary, Maine.—"I feel it a duty I all my own work for a family of owe to all suffering women to tell what Lydia E. Pinkham's Vegetable my good health to your medicine." Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely staighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost inon appetite and was so nervous I even lifted a chair it would cause a hemorrhage. I had a growth which the doctor said was a tumor and I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost Now answer this question if you can use this letter to help other suffering women."—Mrs. Rosa Sina, 16 Wyona St., Charlotte, N. C.

Now answer this question if you can. Why should a woman submit to a surgical operation without first giving Lydia E. Pinkham's Vegetable Compound a trial? You know that

it has saved many others-why should it fail in your case? For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedyfor fe-male ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health. Write to LYDIA E.PINKHAM MEDICINE CO. · (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

PLEASE HIM WITHOUT FUSS Not Hard to Put Some Dainty Hand-

work on the Front of Husband's

or Brother's Silk Shirt.

A man doesn't like "fussy" things,

but he'll appreciate a bit o' handwork on the front of his silk shirt. Aak him! No. don't-surprise him! If you are afraid that you can't make the shirt entire, buy one from his haberdasher. The material best suited for the purpose is stripeda white ground-so be sure that you get his favorite color. Most men are fond of lavender. Now stamp in the center of the white ground between the colored stripes, about two inches apart, tiny designs not larger than a ten-cent piece down the front. There is a tiny round five-petaled flower without foliage or stem and with a solid dot to fill the center space where the petals meet that is easily drawn or stamped by even the novice, and looks well. If preferred, one can use the more difficult bowknot or fleur-de-lis. Pad the designs well and work them in white silk floss. Floss the color of stripes may be used, but it is rather conspicuous. There is a quiet

elegance about the white on a white

ground that most men would prefer.

It is necessary to embroider only that

part which shows when the coat is

Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: First-The indisputable evidence that it is harmless: Second-That it not only allays stomach pains and quiets the nerves, but assimilates the food: Third-It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system-not by stupefying it-and our readers are entitled to the information. - Hall's Journal of Health.

Letters from Prominent Physicians addressed to Chas. H. Fletcher. Dr. B. Halstead Scott, of Chicago, Illa., says: "I have prescribed your 900 DROPS Castoria often for infants during my practice, and find it very satisfactory." Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place." Dr. J. H. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria A Vegetable Preparation for Assimilating the Food and Regula-ting the Suomacks and Bowels of extensively, as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's." Dr. Wm. J McCrann, of Omaha, Neb., says: "As the father of thirteen

children I certainly know something about your great medicine, and aside from my own family experience I have in my years of practice found Castoria a popular and efficient remedy in almost every home." Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Cas-

toria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy." Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not

prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."
